

for School STS coordinators and teachers

1. Maximum Number of Entries per School Level: Primary Level (F-6) or Secondary Level (7-10)

- Enrolment numbers in a Primary campus include all students enrolled from F to 6, while enrolment numbers in a Secondary campus include students in Years 7 to 10 only.
- Each school campus (ie. F-6 or 7-10) is restricted to a maximum number of entries equal to 5% of the student enrolment at that campus OR 25 entries, whichever is the greater.
- In addition, each campus is allowed to submit a MAXIMUM OF 25 ENTRIES IN ANY ONE DIVISION/SECTION of STS. Thus a campus with an enrolment of 1200 will be entitled to 60 entries, with no more than 25 entries in each division/section. As an example, this campus may submit 60 entries with, say, 25 in Intermediate Research, 15 in Junior Models and 20 in Junior Games. Class projects are not included in these numbers.
- There is a maximum of 8 entries per school for the Class Project. A class project can have up to 35 students per project.
- For STS purposes a campus is a separate location with students permanently enrolled at that location and administered by a campus Principal.
- Primary and Secondary components at the one location are regarded as separate campuses. Separate Entry details must be completed for primary and secondary.

Note that a group entry is TWO students only.

2. Open Section (Year 11 and 12)

- STS aims to encourage students to pursue their interests in science by allowing keen students who have personal interests in one of the Sections offered, the opportunity to develop these interests provided they fit into the guidelines of the competition. Students may enter all Sections except Posters and Creative Writing.
- We hope teachers will encourage only those students who are capable of organising their time to fulfil VCE requirements and complete work on personal projects.

3. Individual and group entries

- Students can enter an individual project or a group project.
- A group consists of TWO students only, with the exception of the Class Project.
- The Class Project can have up to 35 students per project.

4. Schools' responsibilities for judging entries

All schools entering STS must provide 1 Judge per twelve entries (or part thereof). Therefore, even if your school has only one entry, you must still supply one judge. You must nominate judges by the registration closing date.

All Judges from the metropolitan area will be required to select a Section which will be judged at one of three venues on Special Judging Day. You may, however, choose Creative Writing and Experimental Research as your **second** preference.

Teachers who cannot judge on Saturdays due to religious reasons can request to judge Creative Writing or Experimental Research by email to sts@stav.vic.edu.au.

Judging on the Special Judging Day requires a commitment of about 5 hours - from 8:00am to 1:00pm.

Judging on the Special Judging Day is usually in pairs. Where possible a primary and secondary judge will be paired together. Judges are expected to evaluate all divisions within a section.

1. Country Judges can select any Division / Section. If posters/photography/videos/games/models/computers are selected, the Judge is committed to attend one of the Special Judging venues on judging day. If research or creative writing is selected, entries for judging will be sent to the judge.
2. If a judge becomes unavailable at the required judging time, it is the school's responsibility to provide replacement judges for those who cannot fulfil their obligation.
3. If a school cannot supply the required number of judges, then the STS Committee will not judge entries from that school.

Students who submit a project into the experimental research and inventions section are automatically entered into the **National BHP Billiton Foundation Science and Engineering Awards**. Students who win major bursaries in these sections of STS will be shortlisted for selection as a finalist in this national competition. You must notify STS if you do NOT want your project forwarded to BHP Billiton Awards. For more information go to <http://www.scienceawards.org.au>
